EXPERIENCE

TECHNOCRATES

Operational Team Member

Ghaziabad, UP
NOV, 2022 - Present

- Serve as a multi-faceted team member, seamlessly blending roles as an operational team member, frontend developer, and graphic designer.
- Proficient Frontend Developer crafting user-friendly interfaces with a focus on aesthetics and functionality.
- Graphic Designer enhancing 'TECHNOCRATES' visual identity with striking layouts, logos, and promotional materials.
- Integral in operational tasks, event planning, and logistics, ensuring seamless club initiatives.

FOSS United Community

Core Member

Ghaziabad, UP
NOV, 2022 - Present

- Active core member of FOSS United, a vibrant open source community, specializing in frontend development.
- Contribute to open source projects, leveraging expertise to create dynamic and user-friendly interfaces.
- Collaborate with a diverse team of developers, fostering the community's mission through collaborative coding practices.

SprintHacks 2023

Hackathon

Ghaziabad, UP
April, 2023

- This was first Hackathon of my college journey. It is a great way to network, learn new skills, and challenge yourself in a fun and supportive environment.

WEB3 Builder

Hackathon

Delhi Technical University (Delhi), UP
Sep, 2023

- Engaged in a collaborative team project during a hackathon, assuming the role of a frontend developer. Skillfully utilized the ReactJS stack to design and implement captivating user interfaces and web applications.

PROJECTS

PyDelhi Conference Site — ReactJs

Project Link: <https://github.com/Dev-anshika98/conference>

- I created a conference website of PyDelhi conference in a team that contains all the information and details of conference.

To-Do Task List — HTML, CSS, JS

Project Link: <https://github.com/Dev-anshika98/ToDo-List>

- I designed and implemented a dynamic and interactive "To-Do List" web application using HTML, CSS, and JavaScript. The application allows users to perform the following tasks: create, read, update, and delete.

Weather-App — ReactJs, API Used

Project Link: <https://github.com/Dev-anshika98/Weather-App>

- It is a user-friendly weather webapp. It provides real-time temperature, humidity, and wind speed information for any location globally.

Portfolio — ReactJs

Project Link: <https://dev-anshika-portfolio.netlify.app/#/home>

- This is my personal website, showcasing my projects and skills in web development, Working on it..
